INTERNSHIP

AICTE
Eduskills : AI-ML
01/2022 - 04/2022,
Role

- We will be able to select and apply machine learning services to resolve business problems. I built a custom chatbot by using Amazon Lex through a guided, hands-on approach. I worked on improving accuracy of that model . I've learnt the process to deploy the ML models.

SalesForce
Trailhead/Trailblazer
06/2022 - 10/2022,
Salesforce Developer

- I analyzed the processes in the company, designed the CRM workflows in Salesforce, and also provided custom solutions for specific business requirements.

PERSONAL PROJECTS

Face Mask Detection

- I built a real-time system to detect whether the person on the webcam is wearing a mask or not. This is developed using mobilenetV2 and code is written in python.

Student portal Website

- The website allows you register and create course related study material if you are logged in as a teacher or gives access to the courses if you are logged in as a student. I developed the front end and backend of this web-app using HTML,CSS , JS , Python and Flask.
